SUPPLEMENTARY INFORMATION:

Description: The Consumer Education and Parental Choice in Early Care and Education project is proposing to conduct qualitative case studies to examine consumer education strategies in up to six sites. Sites will be selected based on a scan of innovative or promising strategies being used to help parents looking for and selecting CCEE. In each site, we will conduct interviews with CCDF administrators and agency staff, consumer education services staff, and other key informants to collect information on select consumer education strategies and implementation successes and challenges. We will conduct focus groups with parents of young children to gather information about their experiences looking for CCEE.

The study will collect information about (a) the selected consumer education strategies; (b) implementation successes and challenges; and (c) parents' experiences looking for CCEE, including the resources they used and their awareness of and perspectives on state/local consumer education resources.

Respondents: State, Territory, and Tribal CCDF program administrators and agency staff, consumer education services staff, key informants who interact with parents and provide a state/local perspective, and parents/guardians of children under age 6.
